

Global Leader
In Cybersecurity

Bitdefender®

Is the evolving threat
landscape **really**
your main cybersecurity
challenge?

\$55B

lost through BEC
attacks in a decade**

44%

breaches involved
ransomware*

66%

increase in
BEC*

37%

increase in breaches
involving
ransomware*

It is when **combined**
with an expanding attack surface

60%

breaches involved
humans*

34%

breaches exploited
vulnerabilities*

84%

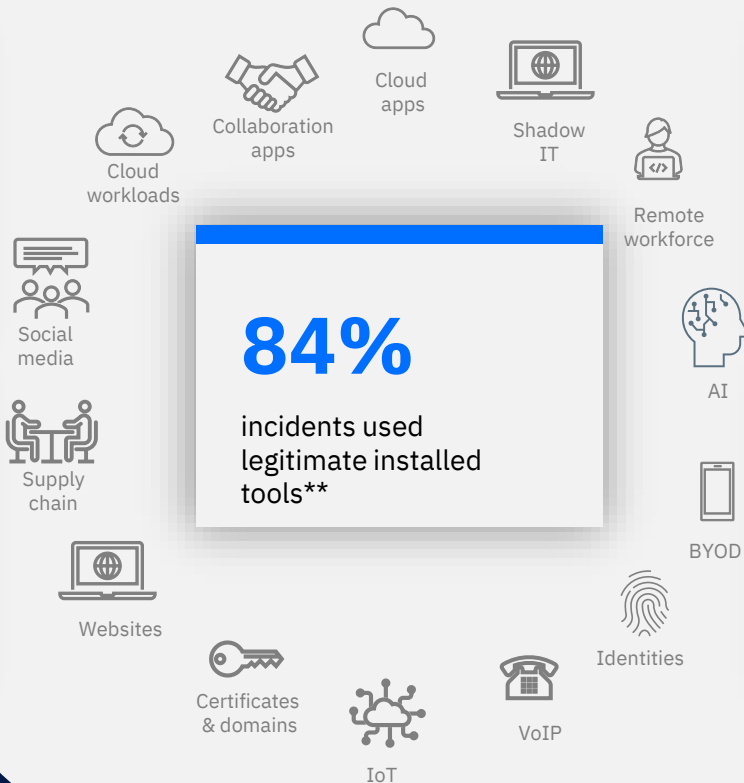

incidents used
legitimate installed
tools**

30%

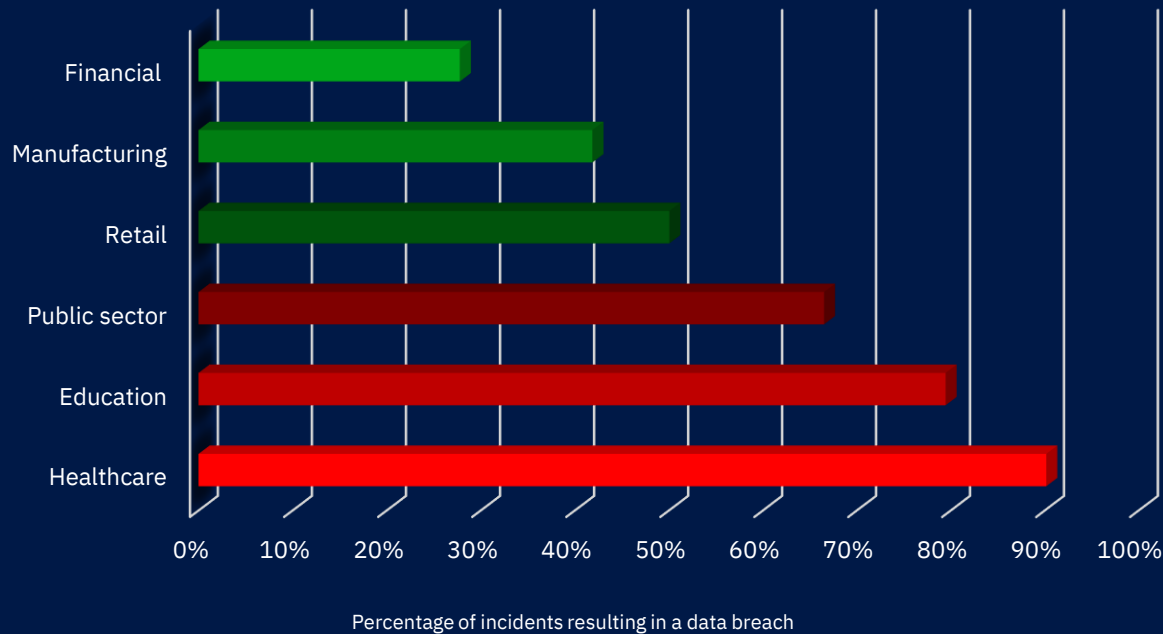

breaches involved a 3rd
party*

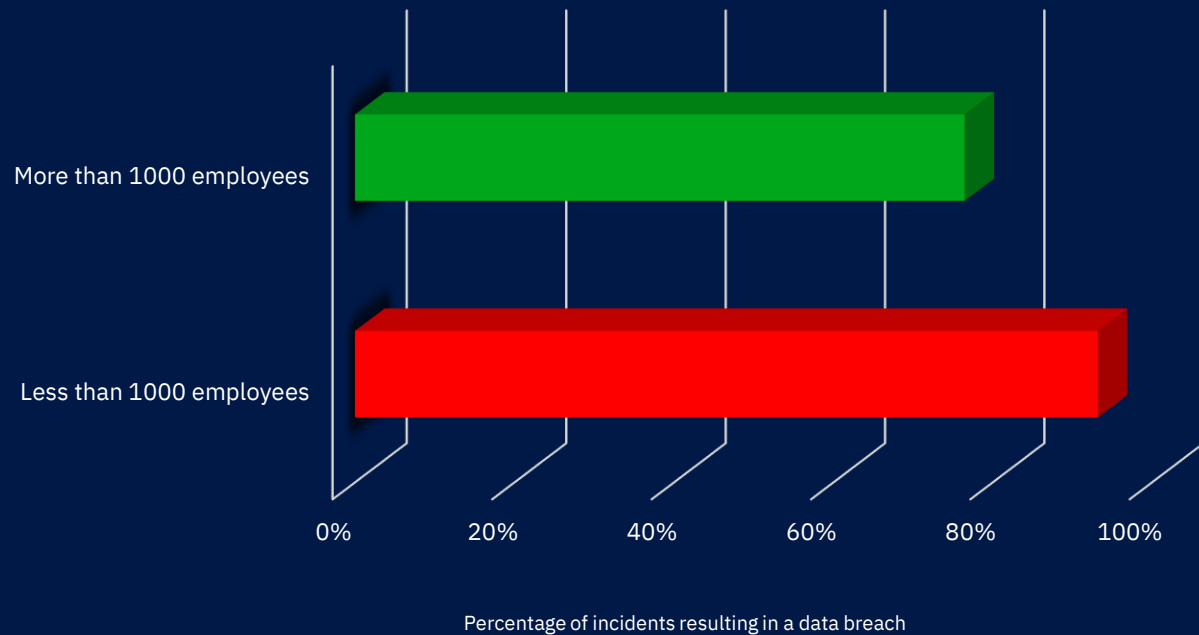

32 days

to remediate perimeter
device vulnerabilities*

Some industries **reap rewards** from their security program

Larger businesses
reap rewards from
their security
program

How does a large bank
build a **mature** security
program?

They secure their business across the **attack lifecycle**

*Reducing MTTD, MTTC and MTTR is a tangible and promotable benefit of better knowing your attack surface**

Tool sprawl creates **complexity** and is costly

43

Risk Management

52%

Say complexity is the biggest impediment to cybersecurity operations**

Effortless Security. Unmatched Protection.

GravityZone: **optimized** for lean IT and security teams

GravityZone: **critical** business outcomes

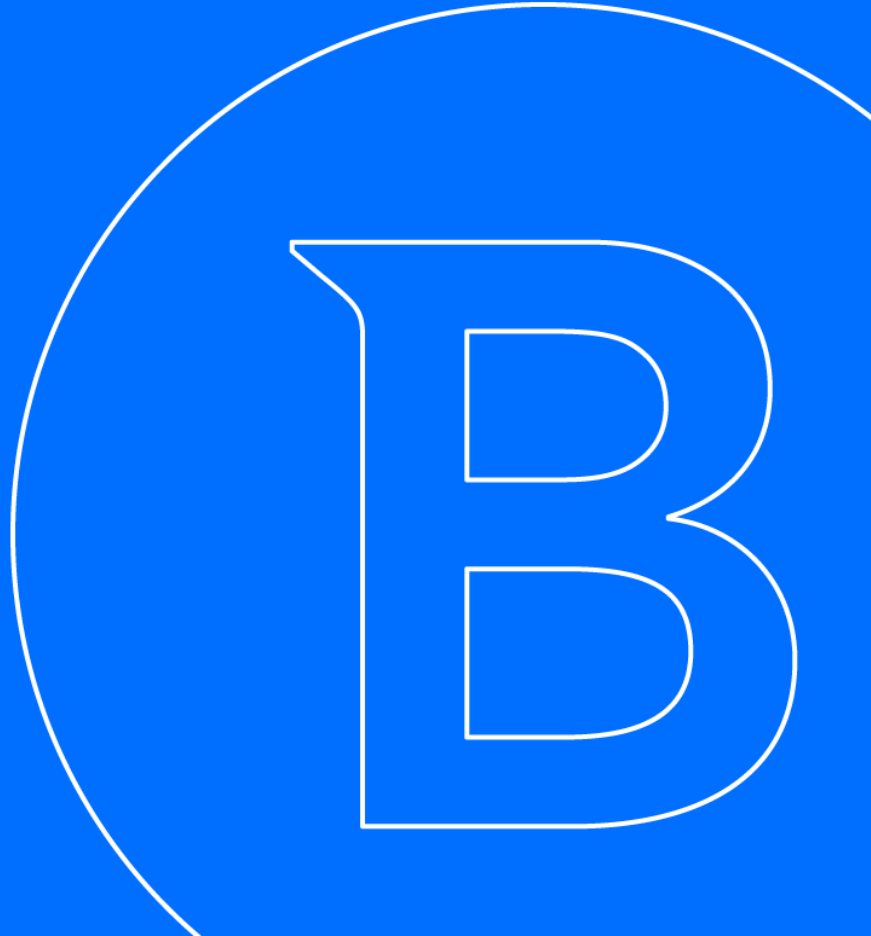

Global Leader
In Cybersecurity

Bitdefender®

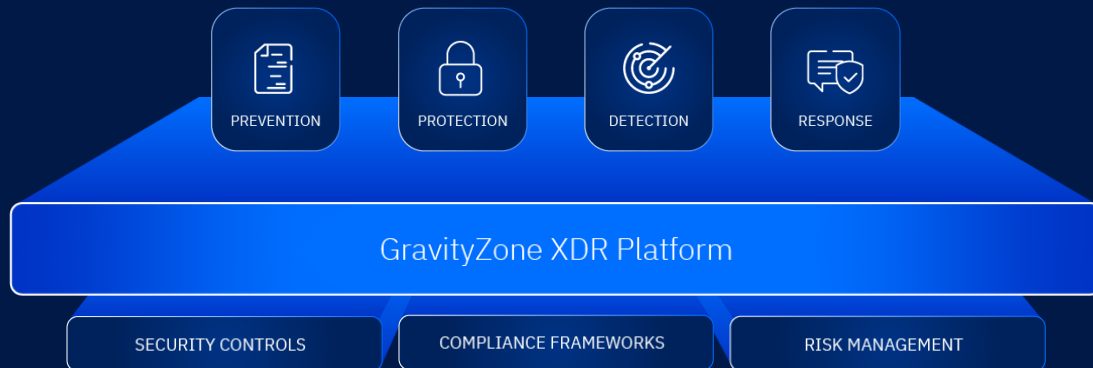

Products, technologies
& services

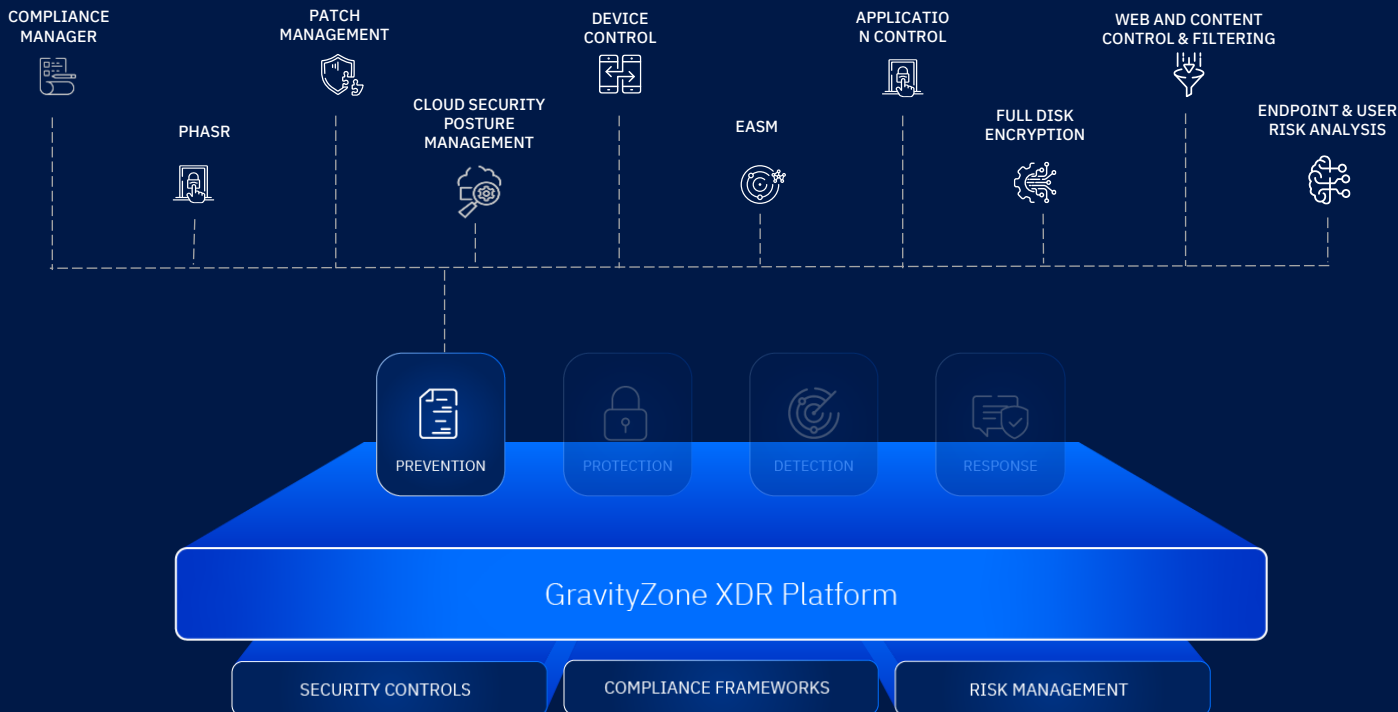

Reduce risk across the **complete cyber attack lifecycle** and all your digital assets

Proactively reduce the risk of a successful attack

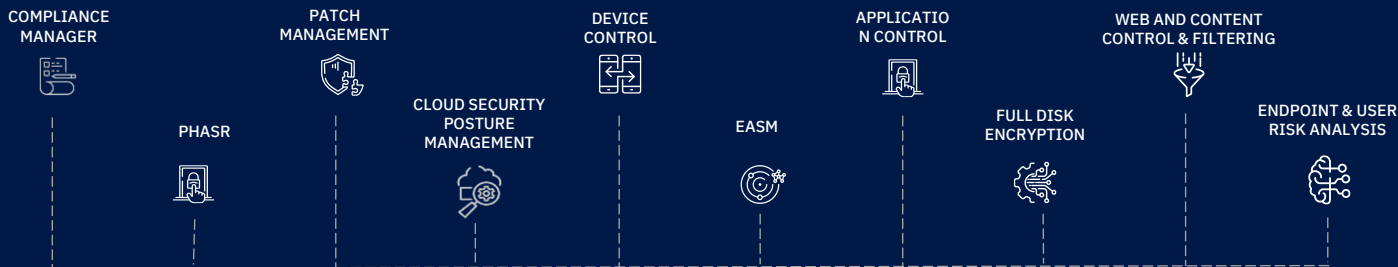

PREVENTION

Proactively reduce the risk of a successful attack

PREVENTION

Simplify risk reduction across your entire attack surface

Demonstrably quantify security posture improvements & compliance

Reduce the likelihood of an incident and the burden of response

GravityZone XDR Platform

SECURITY CONTROLS

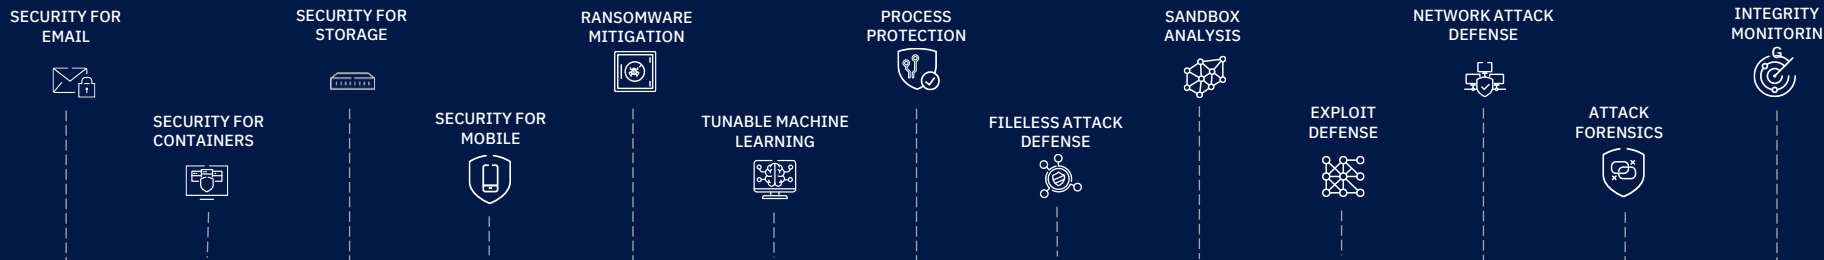

COMPLIANCE FRAMEWORKS

RISK MANAGEMENT

Proactively reduce the risk of an incident occurring

Proactively reduce the risk of an incident occurring

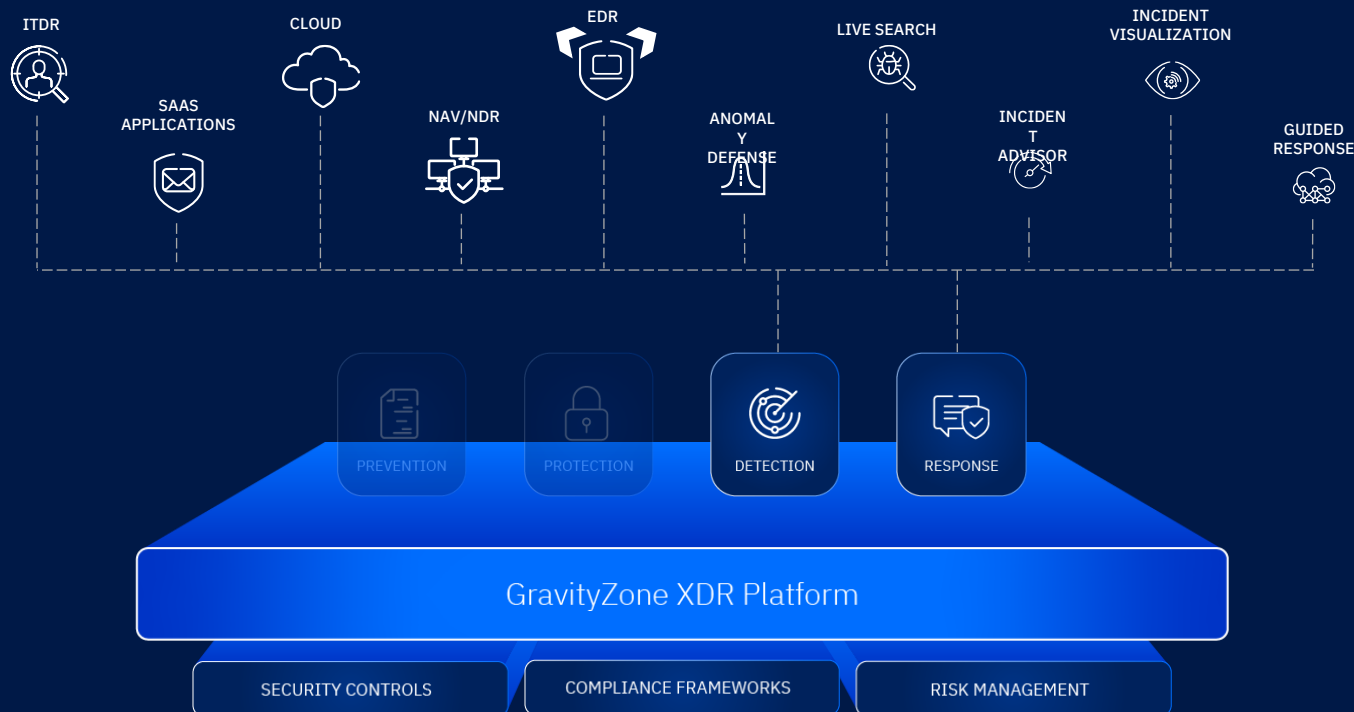

Reduce the risk of an incident becoming a breach

DETECTION

RESPONSE

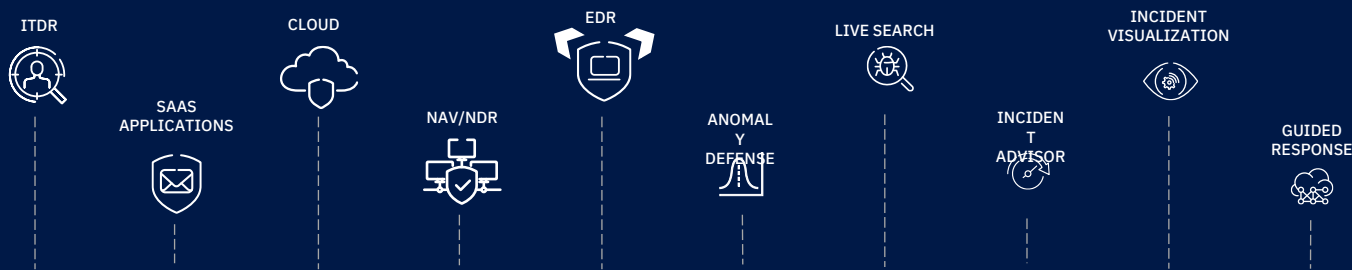

Reduce the risk of an incident becoming a breach

DETECTION

RESPONSE

Minimize the business impact of an incident by preventing a widespread breach

Minimize business disruption caused during incident response

Accelerate post-incident recovery to minimize business disruption and financial impact

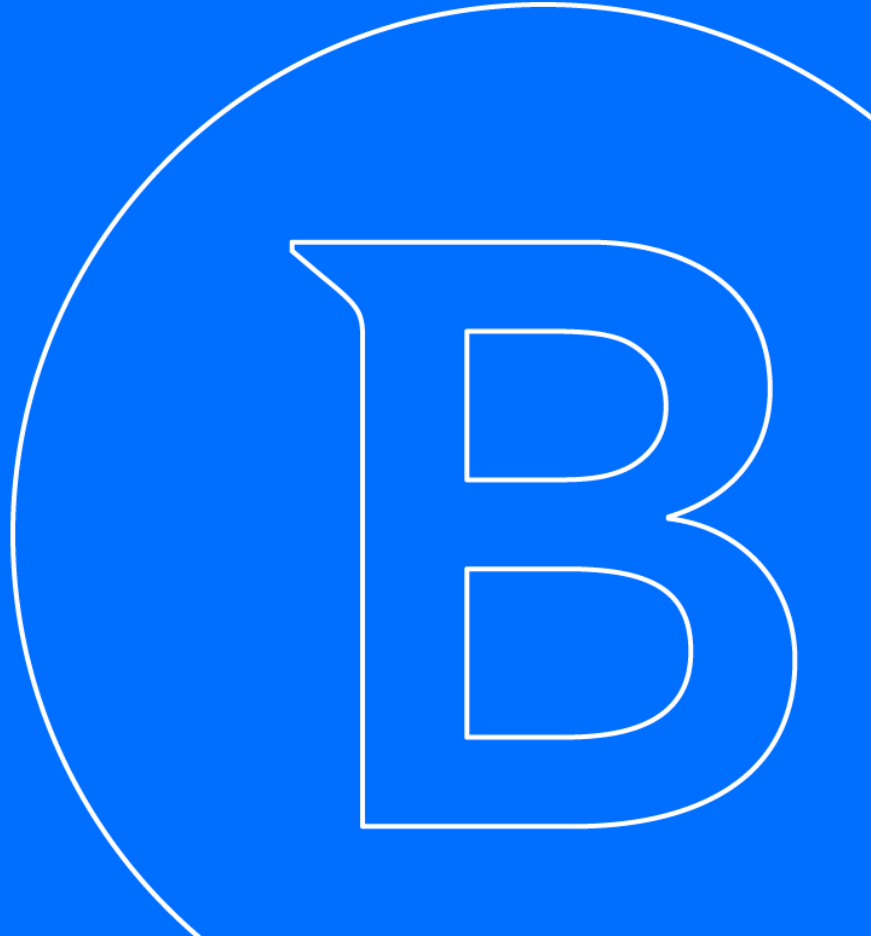

GravityZone XDR Platform

RISK MANAGEMENT

Consistently top-ranked threat
prevention, detection, and
response

Trusted

- Vendor behind vendors
- Cybercrime Fighter
- Founded in 2001
Europe, US HQs, 17 regional offices,
35k+ partners

Protecting leading brands

Partnering against cyber crime

FBI

Department of
Justice

Technology leveraged by 200+ top brands

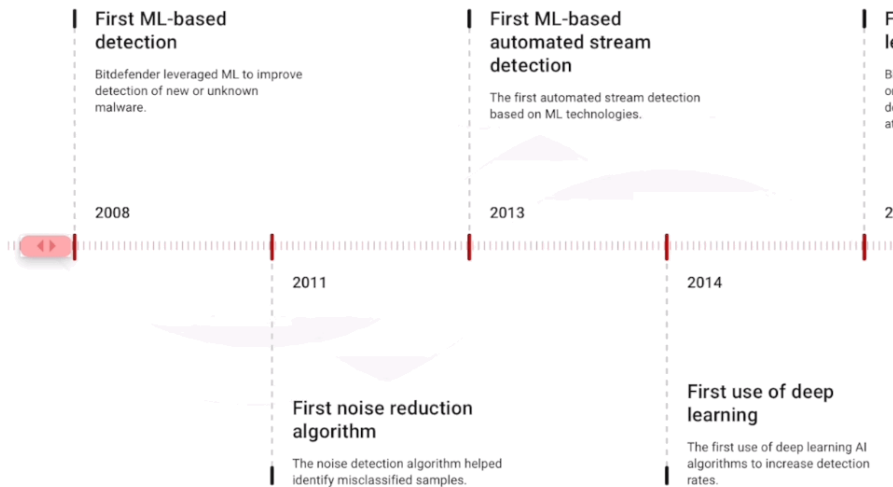

Innovative

- AI-driven detection since 2008
- 900+ R&D Employees

We don't just keep up with AI advancements.
We help to shape them.

70+ academic [papers](#) published

50+ Bitdefender researchers teaching at universities

Proven

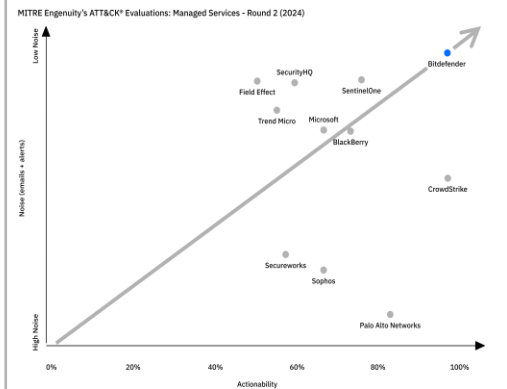

- Ranked 1st more than any other vendor in top independent tests
- Top 3 analysts' coverage in 20+ current reports

Unsurpassed Cybersecurity Effectiveness

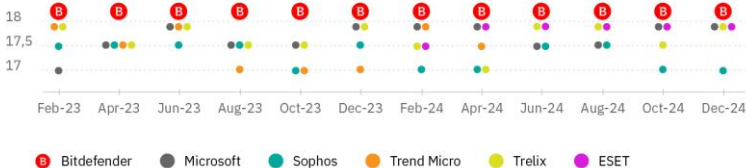

Tops Breach Prevention and TCO in AV-Comparatives EPR Tests

Highest Actionability, Fewest Notifications
MITRE Engenuity ATT&CK Managed Services

Top protection, performance, usability. Consistently
AV-TEST (Jan 2023 – Jan 2025)

Leading Managed Detection & Cybersecurity Consulting

- Build cyber resilience for multi and hybrid cloud environments. Defend against advanced threats with CREST-accredited advisory and assessment services that keep you compliant with recognized frameworks such as NIST and ISO 27001.

Cybersecurity Services

Advisory

Security Consulting and Advisory • CISO-as-a-Service • Cybersecurity Assessment • Tabletop Exercise (Incident Response) • Policy Formulation • Cyber Risk Management • Cloud Security Assessment • Threat Modelling	Security Awareness • Security Awareness Training	Regulatory Compliance • ISO 27001 Compliance • MAS TRM Compliance • MAS Cyber Hygiene Compliance • OJK Regulations Compliance • SOC 2 Compliance • Data Privacy Compliance (UU PDP, PDPA)
---	--	--

OFFENSIVE

Vulnerability Assessment and Penetration Testing • Web application • Mobile application • API • Thick client • Network & infrastructure • Vulnerability assessment • Host Configuration Review • Secure Architecture Review • Source Code Review	Offensive Security • Cloud Security Review • Smart Contract Audit • Red Teaming • Purple Teaming • Phishing Campaign
